From the New York Dispatch, Oct. 1, 1859. SOMETHING FOR THE LADIES -A new invention he recently appeared, which, although useful to everybody, is specially claimed by the Ladies, as being exare delighted with Spalding's Prepared Glue. It brings up no disagreeable associations of sticky glue pots and stiffing odors, but is merely a clear transparent liquid, in a pretty little bottle, with a small ac table in all the land, with colorne and China trifles. And so useful it proves, too, if any accident happens to the ten thousand little knick-knacks that ladies delight in. No sending to the manufacturer for re pairs, at an expense scarcely less than would attend the purchase of a new article. A few of the Crysta drops, skillfully applied by fair flagers, will set all right. For furniture, for work-boxes, for books, for everything, it is a perfect little family physician! The amount of money that one of these bottles can save in a month, would seem almost incredible, and Ladies rely on their Prepared Glue as a sort of a magician that can effect everything. And they know, too. When any article of domestic form meets the enthusiastic sanction at their hands that Spalding's Prepared Glue has received, you may be pretty sure tis something worth having on your closet shelf.
